Benoit has been recognized as a major provider of quality, reliability, and excellence in services for Information Technology & Power Solutions. Benoit business purpose is to accelerate the advancement of knowledge and fundamentally improve the effectiveness of people and organizations through IT & Power solutions. Benoit strength lies not only in its wide spectrum of products but also in its ability to merge technologies to provide comprehensive solutions to a wide variety of specific problems. Benoit Technologies caters to all the requirement of the large corporate customers. Providing after sales support has been appreciated by all our customers and probably it is the single most reason for our continuous growth.

OUR MISSION

Benoit Pledges to "Quality Protection of your IT assets". Our mission is to ensure technology products and services of the highest quality and value are competitively and fairly priced for the benefit of businesses striving to succeed in a competitive marketplace. At Benoit Technologies LLC, "we pledge to provide distinctive quality and unparalleled customer service as we strive to maintain the respect and trust our customers, suppliers, and partners so gracious entrust to us." While providing such invaluable services, we have become the industry leader in providing quality Power Protection, IT products and services.

OUR EXPERIENCE

With 9 years of experience of implementing Power protections and low voltage systems, our technical support team has seen many complex issues that we were able to resolve. We have built a team with a level of knowledge and commitment that ensures that your goals are met.

OUR APPROACH

Success stems from a clear vision of your business goals, so our technical support team employs a very process-centric approach. Your core business processes form the foundation of that approach, because technology must facilitate execution of those processes. We provide custom Power protection equipment and low voltage solutions to any size business.

OUR PERSPECTIVE

Our focus is to deliver a quality technology solution that is driven by your business. We collaborate with clients to translate business strategy into the right technology plan. This process allows our technical support team to meet your technology needs with a perfect match from IT Consulting, support Services, Benoit is your one stop shop for all quality Power needs.

Benoit Technologies goal is to become the number one Quality Power Products distributor and system Integrator, crushing all other competitors by providing not only quality IT Solutions, but also first class Customer Service. Unlike competitors who provide IT solutions, but forget about Quality Customer Services.
