

**We Support Sustainable Infrastructure
Development with the Reliable, Feasible &
Quality Power & Cooling Solutions - Both
Conventional & Non-Conventional.**

"Go Green & Save Planet"

Benoit Technologies is a systems Integrator and Information Technology & Power Solutions company. We are an independent distributor & Reseller of Power Continuity, Energy Management & Cooling Products. We are also focused in renewable Energy Products - expertise in Offgrid Solar Systems. Benoit holds few of the leading brands' Service Authorization for Middle East. The company designs, sells, implements, integrates, and manages Uninterrupted Power Supply, Cooling Systems, DC Charger, DC Battery bank, Servo Stabilizers, also specialized in managed printer services (which included copiers, multifunction printers, scanners, plotters) & offers Annual Maintenance Contracts. With offices in Dubai, Abu Dhabi, Al Al Ain representation in Other GCC Countries - Oman, Qatar. Benoit is very well positioned to fulfill the IT & Power needs of business in the Middle East.

We are independent of any one manufacturer's products and is therefore free to supply leading industry brands and put together multi-vendor solutions tailored specifically to meet customers' needs. Our Team has expertise in various Brands and authorized engineers are also skilled at working on most of the leading brand technologies.

Benoit Technologies caters to the Power, IT Products and Service needs of Governments, Corporate, Multinational companies, Hotels & Restaurants, Banks, Educational Institutions, Healthcare, Small and Home Offices in partnership with world leading brands like GE, ABB, EATON, SUNGROW, VERTIV, APC, POWERON-ENERTECH, etc

Benoit has been recognized as a major provider of quality, reliability, and excellence in services for Information Technology & Power Solutions. Benoit business purpose is to accelerate the advancement of knowledge and fundamentally improve the effectiveness of people and organizations through IT & Power solutions. Benoit strength lies not only in its wide spectrum of products but also in its ability to merge technologies to provide comprehensive solutions to a wide variety of specific problems. Benoit Technologies caters to all the requirement of the large corporate customers. Providing after sales support has been appreciated by all our customers and probably it is the single most reason for our continuous growth.

The company was established in 2008 with Major Activity as Datacenter Solution, now under the group there are many associate companies covering a diversified portfolio. We provide one of the best in Industries presales and after sales support to all our customers regardless what range of units they have bought from us.

We provide 24*7 Support for all the products & services that we offer with our inhouse subject matter experts in each Product line from our Service Facilities in UAE (Dubai & Abudhabi), Oman, UK, & India (Mumbai, Delhi, Bangalore & Kerala).

A wide-range products & its required spare parts are always kept in stock within our large stores at Dubai & Mumbai

MAJOR PRODUCT PORTFOLIO

- ✖ Uninterrupted Power Supplies (UPS)
- ✖ Closed Cooling Circuits (CCU)
- ✖ Batteries - VRLA, NiCD, Li-Ion
- ✖ Datacenter Raised Floors
- ✖ Servo Stabilizers & Transformers
- ✖ Isolated Power Suppliers (IPS)
- ✖ Electric Vehicle Charging System
- ✖ Solar On Grid & Off Grid Products
- ✖ Turnkey Project Management
- ✖ Solar Water Heater
- ✖ Offgrid Solar Backup Systems

OTHER PRODUCTS & SERVICES

- ✖ Generator & UPS Rentals
- ✖ Annual Maintenance Contracts
- ✖ Battery Testing & Replacement
- ✖ System Design, UPS Health Checks
- ✖ Project Management Installation Services
- ✖ Relocation of Datacenter
- ✖ Datacenter Migration Support
- ✖ Datacenter Monitoring Systems
- ✖ Power Dissipation & Energy Auditing
- ✖ Industrial LED Solutions
- ✖ Renewable Energy Solutions
- ✖ Solar On-Grid & Off Grid Supplies & Maintenance
- ✖ Printer Repair & Maintenance Services
- ✖ Asset Management & Optimization

"Let's Sun Lights Nights Too.."

Power Protection: Uninterrupted Power Supplies

Power Protection Systems; UPS, IPS & Batteries
Benoit Technologies LLC sells equipment from the leading manufacturers in the industry. Such products give customers the means by which to protect the supply (or supplies) of electricity to their businesses, thus ensuring that critical systems can continue when a mains power cut happens. Such products, UPS (uninterruptible power supplies) in particular, also condition raw mains electricity and stop the power problems associated with it, such as sags, surges, brownouts and so on, which could lead to severe disruption or cause damage to expensive machinery, computer and other equipment.

Offline UPS Systems: 500VA - 1000VA

Line Interactive Design: 600VA - 2000VA

Online Double Conversion: 1000VA-800KVA

- High Frequency UPS
- Low Frequency UPS
- Modular Design
- Industrial Design
- Portable Backup Centre

Batteries

Batteries are of a wide range. We supply & support best available leading Brands in the world which promises & tested proved with high efficiency, good discharge rating and uses the best components.

Types: VRLA, NiCD, Lithium-Ion, GEL Batteries

Stabilizers & Transformers

Stabilizers comes in major two designs-Electronic or Servo Type. We support the electronics upto a range of 3KVA and servo from 1KVA till 1200KVA Range. Benoit Technologies LLC has distribution ship with POWERON ENERTECH, one of the leading Power Product Brand in India & UK.

Servo Stabilizers

Air Cooled Type from 1KVA till 300KVA

Oil Cooled Type from 100KVA till 1200KVA

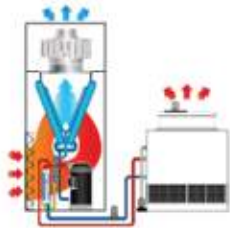

Precision Air Conditioner (CCU)

Hot/Cold aisle containment product is an energy-saving program for medium to large data center deployments. It can greatly improve data center cooling capacity and more efficient make full use of cabinet and engine room space.

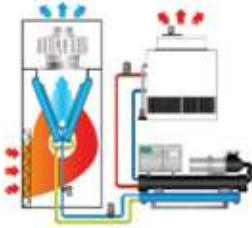

Reliability - Efficiency - Environment Protection - Flexibility

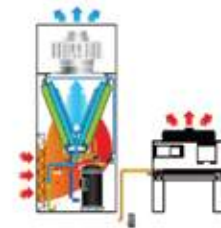

1 A type-Air Cooled

2 W type-Water Cooled

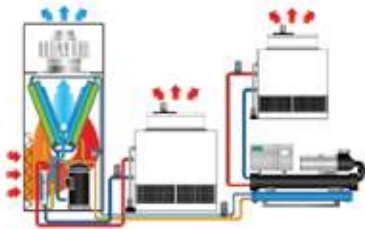

3 C type-Chilled Water

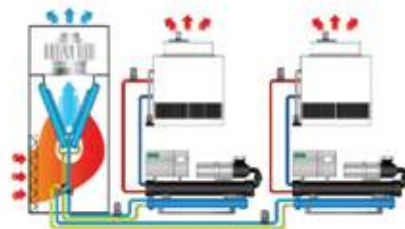

4 G type-Glycol Cooled

5 D type-Air Dual Cooled

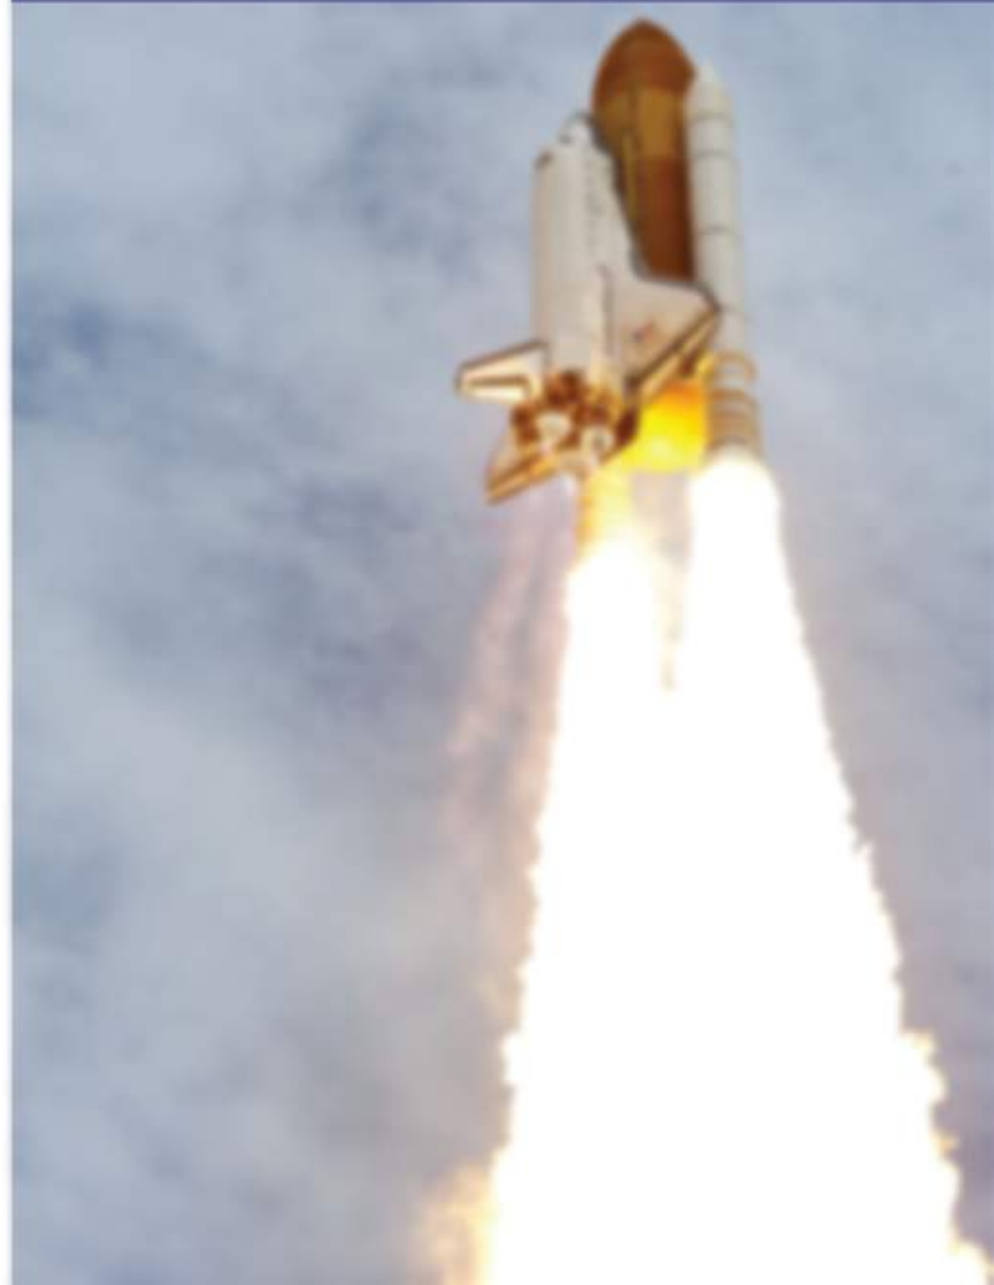

6 E type-Water Dual Cooled

7 F type-Dual Chilled Water

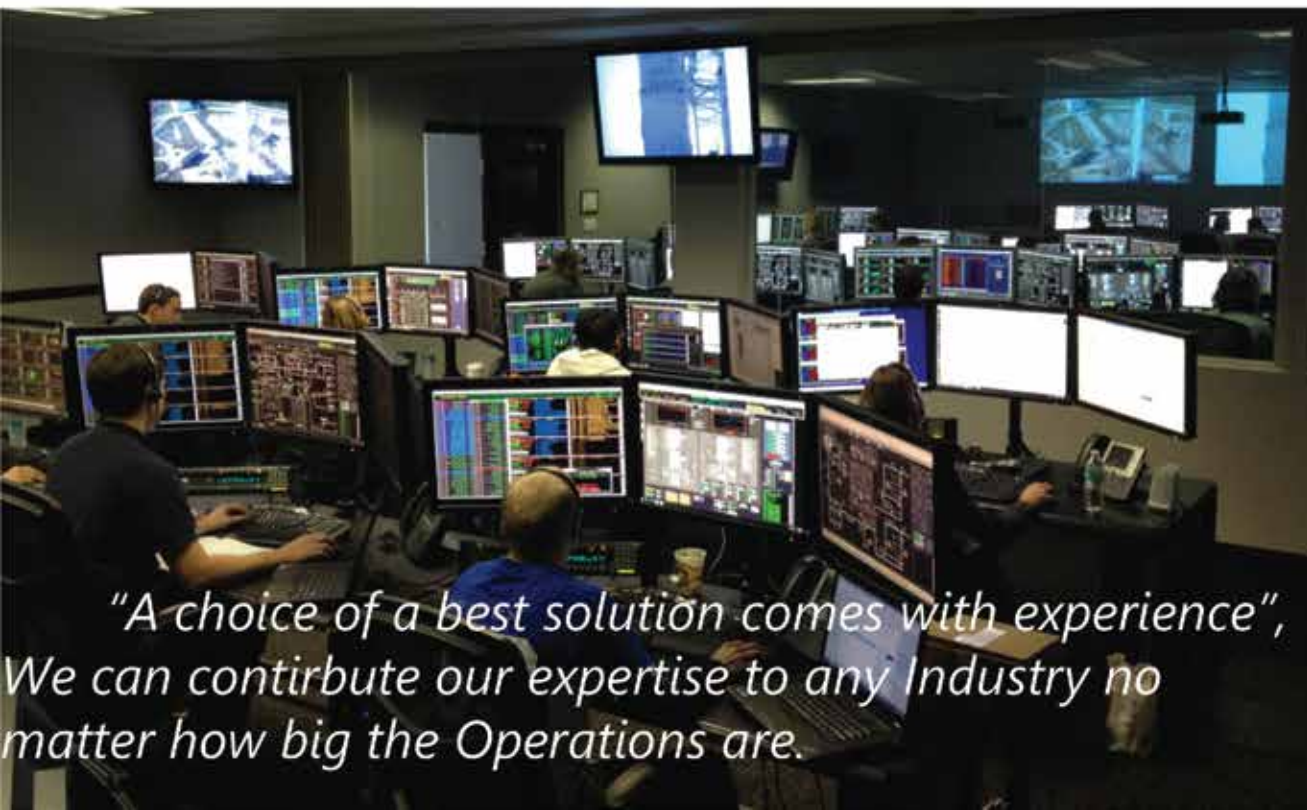

"We backup with the best technologies to take our Customer's Goals beyond the limits"

Electric Vehicle Charging Station

AC Charging products provides charging power supply for electric vehicles by means of advanced embedded control technology, and exhibit multiple modes and intelligent management and comply with the latest national charging standards. System is available in both Single phase and Three Phase poles.

- * User friendly display modes
- * Billing Management
- * Auto Stop and Fault Indications
- * Strong compatibility
- * High Reliability
- * Integrated floor type Installation methods
- * Advertisement Bill Boards integrated

*"A choice of a best solution comes with experience",
We can contribute our expertise to any Industry no
matter how big the Operations are.*

Major Brands we Support

Inverters

We offer the best technology embeded inverters

- * Normal Puresinewave intervers from 600VA till 20KVA 3Phase.
- * Offgrid & Hybrid inverters from 1000VA till 20KVA 3Phase.
(High Frequency & Low frequency models)
- * On-Grid from 10KVA till 250KVA String Inverters
- * Central Inverters for the PV Stations upto 2500KVA

Isolated Power Supply

Isolated Power Supply for Hospitals is a product that is advocated to provide enhanced safety for patients. The IPS system provides continuity of supply in the instance of the first insulation fault. IPS also offers additional protection from electrical leakage currents, for group 2 locations or clinical risk categories.

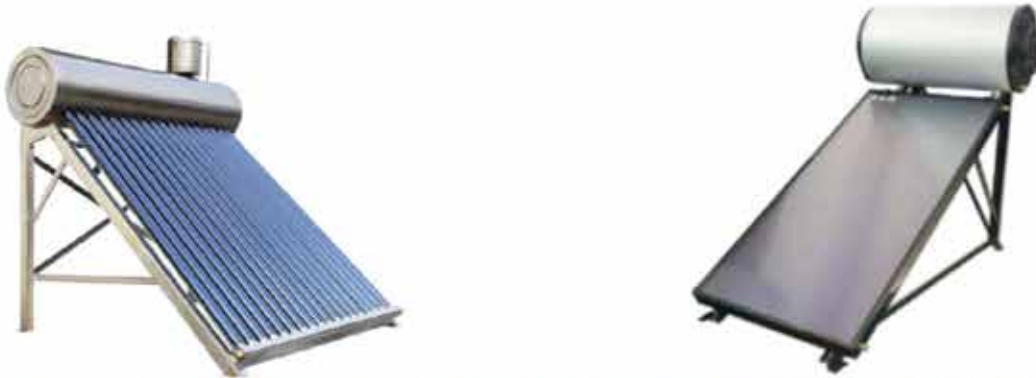

Available in 5KVA & 10KVA sizes

- * Modular Construction
- * Smaller Footprints
- * Additional Earth Fault Indicators
- * Flexible number of outgoings
- * Warranties & 24X7 Support

Solar Water Heater

Food Grade SUS 304 Stainless Steel with Galvanised Steel. Stainless Steel Outer Manifold. The system is Inclusive of Controller, Magnesium Bar, Electric heater, Check Valve & Thermostatic mixing Valve

Other Major Products

- * Solar Water Pump - 0.5 to 150HP
- * Solar Charge Controller
- * DC Cables & Couplers
- * Junction Boxes & Customised Control Panels
- * Solar Street lights
- * Garden Lights
- * Industrial Lights
- * GSM Communication Module upto 16 ports

Major Services that we offer

- * Annual Maintenance Contracts

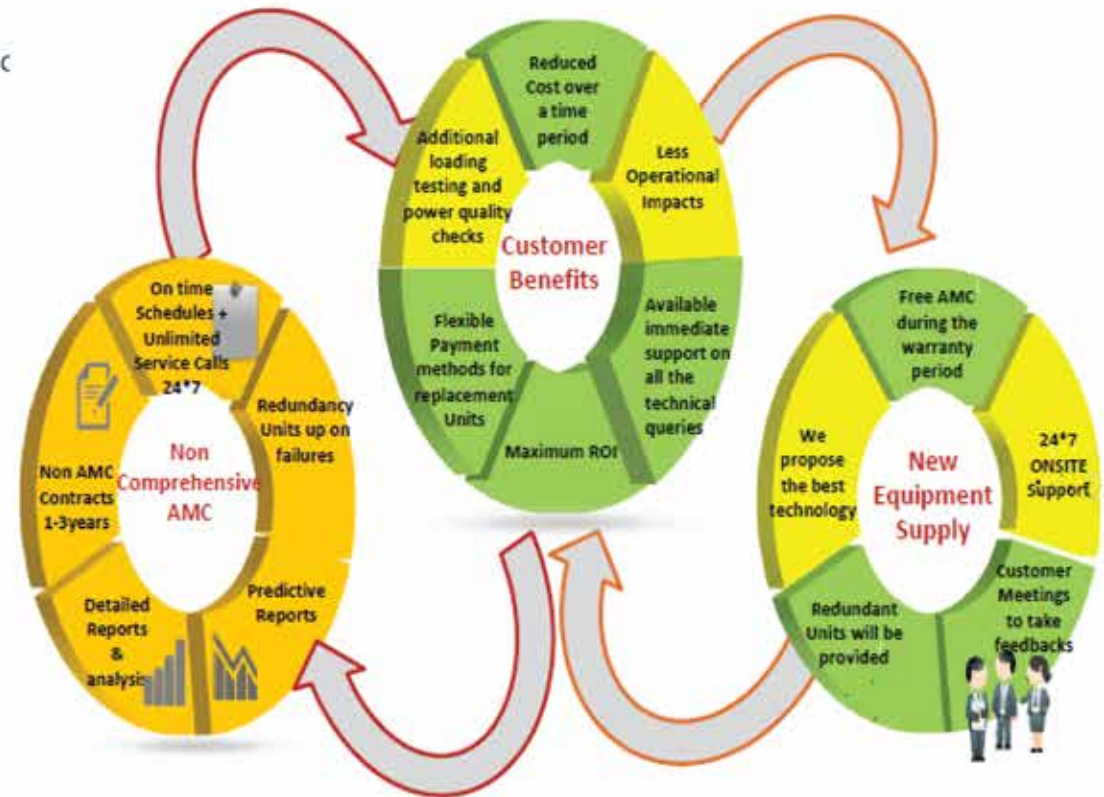

UPS System
Precision Cooling Units (CCU)
Generators
Central Inverters - PV Station
OnGrid Inverters
Capacitor Banks

- * Battery Analysing Testing for UPS & CBS
- * Load bank Testing for UPS & Generators
- * Power Quality Testing
- * Energy Auditing
- * Asset Management
- * Data driven Predictive Maintenance Solutions
- * Data Center Power Migration
- * Project Management - Backup Solutions

Our Customers

- Presidential Affairs
- Ministry of Health
- UAE Armed Forces
- Dubai Municipality
- Dubai Airports
- Abudhabi Airports

- Camel Research Laboratory
- Al Ain Feed Mill Laboratory
- Healthplus Clinics
- Moorfield Hospitals
- Dubai Central Laboratories
- NRL Laboratories
- Saudi German Hospitals
- Mafrag Hospital
- SKMC Hospital
- Thumbay Hospital

Build a clear and strong business relationship. Provide our portfolio expertise in support of business Improvement & engaging the best industry practice.

Support & Service - Offer the best support ""365 days round clock"" support on all the contracted sites. Less operational impacts with a minimum downtime in case of any failure.

Annual Maintenance Contracts or the sourcing of material from us offers less price, Flexible payments & moderate savings over a period of time.

Product life cycle - Assets getting signed under our contract or New supplies, we ensure our customer gets the maximum ROI.
